

SAVE THE PLANET AND SAVE A BUCK

Everytime you recycle, reuse, reduce, you not only help the environment but you save money too!

ELECTRICITY CONSERVATION

- Turn off the lights
- Change out your light bulbs to compact flourescent
- Shut the fridge door
- Use a power strip to turn off office equipment
- Buy energy efficient appliances
- Keep the A/C between 78-80 degrees

ECO FACTS:

- *America's refrigerators use about 7 percent of the nation's total electricity consumption--the output of about 25 large power plants.*
