

# SAVE THE PLANET AND SAVE A BUCK

Everytime you recycle, reuse, reduce, you not only help the environment but you save money too!

## CONSERVE PLASTIC

- Get a reusable shopping bag instead of paper
- Use durable coffee mugs instead of Styrofoam
- Use a reusable water bottle instead of buying bottled water
- Do a water bottle drive
- Remember to remove caps from water bottles when recycling

### ECO FACTS:

- *A single polystyrene (Styrofoam) cup contains one billion billion molecules of CFCs--that's 1,000,000,000,000,000,000.*
- *Once a CFC atom reaches the ozone layer, it can take over 100 years before it breaks up and becomes harmless.*
- *Each year, 1 million sea birds, 100,000 marine mammals, and 50,000 seals are killed as the result of eating or being strangled in plastic.*
