

SAVE THE PLANET AND SAVE A BUCK

Everytime you recycle, reuse, reduce, you not only help the environment but you save money too!

THE FIVE R'S - "REDUCE"

- Donate old cloths, toys and other items to charity
- Buy from resale shops
- Don't eat at fast food restaurants
- Choose items with less packaging
- Purchase only what you need
- Do a can drive for a charity

ECO FACTS:

- *Americans throw away 25 billion Styrofoam coffee cups every year, and 2.5 million plastic beverage bottles every hour .*
- *Americans throw away about 40 billion soft drink cans and bottles every year. Placed end to end, they would reach to the moon and back nearly 20 times.*
- *Eighty-four percent of a typical household's waste--including food scraps, yard waste, paper, cardboard, cans, and bottles--can be recycled.*
